

## SCIFINDER access

Created on 12/01/12 11:49 . Updated on 9/3/12 4:27 PM .

### New form of access to SciFinder

The SciFinder is a research tool from the Chemical Abstracts Service (CAS), for research in the areas of biomedical sciences, chemistry, engineering, materials science, agricultural science.

Until 2011 access was through the Capes Portal. From this year, to access the SciFinder database you need to register on SciFinder Web through computers connected to the UFG network.

To access it is necessary to create an institutional email, i.e., within the ufg.br domain.

#### To create an institutional email:

- Visit the CERCOMP website ( [www.cercomp.ufg.br](http://www.cercomp.ufg.br));
- Enter the *institutional email* tab and follow the directions.

#### To sign up for SciFinder Web:

This will generate a username and password that should be used each time the database is accessed.

- Visit the address: <https://origin-scifinder.cas.org/registration/index.html?corpKey=9F805C59X86F35055X55A601A01FF309FDF5> .
  - Fill out the form and enter your institutional email. This will be registered as your username for accessing Scifinder;
  - Register your login and password.
- Username must be unique and must be 5 to 15 characters. It must contain letters or a combination of letters, number, and/or special characters (dash, underline, period, @, and so on).
  - The password must contain 7 to 15 characters and at least three of the following characters: uppercase and lowercase letters, numbers, non-alphabetic characters (@, #, \$, % \*).
  - Select a question from the list and provide the answer.
  - Confirm registration after filling the fields. To do so, simply click on the confirmation message that will be sent to your institutional email.
- After you register, access the base through the site: <http://scifinder.cas.org> .
