DO YOU KNOW CEI/UFG?

We are an innovation and entrepreneurship hub that drives ventures from early-stage ideas to market-ready businesses. Through our incubation program, we provide hands-on training, mentorship, infrastructure, strategic connections, and international expansion opportunities — all backed by the UFG brand, which lends market credibility, opens doors to grants and calls for proposals, and unlocks strategic partnerships and investment through a track record of scientific excellence.

CEI/UFG is CERNÉ-certified (Brazil's national reference standard for startup support organizations), operates three service units, and is the only technology-based incubator in Brazil's Center-West region accredited under CATI-MCTI — the federal framework for tech-sector tax incentive projects (Informatics Law).

Our infrastructure stands as a benchmark academic environment for entrepreneurship and innovation.

AT CEI, INNOVATION STARTS EARLY!

We closely support emerging ideas developed within Junior Enterprises, research labs, and other student-led initiatives across UFG.

24 Junior
Enterprises*

41 Academic
Programs
Involved*

1,500+ UFG students have participated in the Junior Enterprise Movement (MEJ) *

*Data as of 2025

One of CEI/UFG's
core pillars is fostering
UNIVERSITY ENTREPRENEURSHIP

To support this mission, the incubator organizes innovation challenges, competitions, hackathons, and training programs that introduce students to entrepreneurial opportunities while helping them develop an entrepreneurial skill set.
